To: Tennessee Department of Education
From: Robertson County Schools
Date: July 19, 2013

On behalf of Robertson County Schools, we are requesting an appeal of 62 students' EOC scores that were reported as TCAP achievement scores. While we understand that there was not a grade reported for these students, there were no discrepancies reported on the SDDV site in the fall. These students also should've been 'pre-coded', and would've populated a grade in the system. Robertson County is in no way responsible for the missing grade in the data, and therefore these scores should be reported appropriately as EOC scores.

Thank you for your attention to these matters.

Sincerely,

James M. (Mike) Davis
Director of Schools
